Control Group

Co-operative Limited

V1.01

OUR VISION

The Control Group Cooperative was formed for the purpose of collecting the health data of the voluntarily vaccine free from around the world, as the control group to the SARS-CoV-2 vaccinated. It is our intention to use the stratified data to demonstrate the health outcomes of the control group, in comparison to the SARS-CoV-2 vaccinated by having it analysed and presented publicly by independent scientists and doctors.

As well as collecting the data, we aim to support the SARS-CoV-2 vaccine-free community and their inalienable rights to medical freedom and bodily autonomy.

OUR MISSION

The Control Group will collect the health data through a website portal and make it available to independent researchers and journalists and build a worldwide, community-based support network through social media and work together with other organisation to ensure freedoms are maintained.. We are doing this with love to protect the future of our families, children, friends, neighbours and all of humanity.

OUR VALUES

Freedom – Bodily integrity, freedom of speech and freedom of choice.

Self-responsibility - Every member will be encouraged to take responsibility to be the best that they can, to connect to their passions and be in service to others. Allowing people to be true to themselves enables them to 'do their bit' for their community and make the cooperative successful.

True democracy - Voting power cannot be bought – it's one member, one vote using sociocratic decision-making tools to ensure inclusivity and consent is achieved.

Equity – Our cooperative is committed to fairness, freedom and **Solidarity**, which means that together we are stronger.

Self-help - Members join together, sharing their skills and expertise to learn from what works.

OUR PRINCIPLES

Membership - Voluntary and open to anyone over 16 who supports our aims.

Beyond democratic – To give members the tools to encourage full involvement in decision-making: listening to and understanding members' needs, exploring solutions, clarifying and integrating objections and reaching consent.

Autonomy and independence - We are only accountable to our members, not shareholders. We will always act in our members' interests to maintain the sovereignty of the cooperative.

Education and Training - We are committed to learning and developing our knowledge and skills so that we can be the best example of how a cooperative should be run. We will assist members by providing tools to share best practice.

Cooperation among cooperatives - To create our new future, we need to co-create it with others. We will work with, and support, other co-operatives in any area that will benefit our communities.

OUR AIMS

- a) To operate as a Platform Co-operative using online protocols including websites and mobile apps such as Telegram and Signal.
